

Figure 1

The diagram illustrates an alarm system for a fire valve. It features an ALARM SYSTEM OR RF MODULE (1) connected to a WALL JACK (5). The system includes a WATER SPRINKLER (16) and various components labeled with numbers in parentheses: (2), (3), (4), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (17), (18), (19), (20), (21), (22), (23). The diagram shows the electrical and fluid connections between these components, including a dashed box indicating a specific section of the system.
